Handouts: Minutes from October 30 meeting, MA in Applied Learning and Instruction, MS in Technology, BOG criteria worksheet, and courses and special topics

Welcome and call to order. The meeting was called to order at 1:30 p.m. by Stephen Goodman, chair. Welcome and introductions followed.

Approval of minutes. The minutes of the meeting held on October 30 were approved with no changes.

Addition of an MA in Applied Learning and Instruction. The committee reviewed the revisions that had been made in the proposal for criteria #6 (need for the program) and criteria #8 (evidence that academic units have been productive). The committee agreed that the revisions for both sections looked good and were very thorough. It was pointed out that that needs area was greatly improved and showed a compelling case. Criteria #6 and #8 on the BOG Criteria Worksheet were then reviewed by the committee and were upgraded to met with strength. This proposal received unanimous approval to be sent forward to Board of Trustees.

MS in Engineering Technology. The committee reviewed the revisions that had been made in the proposal for criteria #6 (need for the program). The committee agreed that this section was now very thorough and provided a compelling case for the need. Criteria #6 on the BOG Criteria Worksheet was reviewed by the committee and was upgraded to met with strength. This proposal received unanimous approval to be sent forward to the Board of Trustees.

Courses and special topics. The courses and special topics were then reviewed by the committee. There was much discussion on the HPA PHT 6XXXC Applied Human Physiology course. A possible conflict was brought to the floor by the Burnett School of Medical Science. The committee noted that there is no similar graduate course in Biology or Physiology at the present time. Departments involved will be invited to attend the next meeting for their input. The committee will plan to vote on this course at the next meeting. The committee was not able to get through all of the courses. Remaining courses will go forward to the next meeting. For a complete list of course approved, refer to the courses action minutes.

Announcements and adjournment. Dr. Bishop shared with the committee that two additional proposals coming forward included the M.S. in Biotechnology and the Ph.D. in Statistics. A tentative additional meeting has been set for December 11.

Next meeting. Next meeting is scheduled for November 27, 12:30 p.m., in MH 243.
